

## Powerful slightly alkaline foamer for agricultural use

### Product Description

Biosafe is a concentrated but soft alkaline cleaner with a strong foaming action.

Biosafe can be applied for cleaning sensitive materials (e.g. aluminum) and for animal houses, trucks, cars, agricultural machines, equipment etc.

### Properties

- Biosafe is safe for all materials and the high pressure cleaner
- Biosafe can be applied with or without foaming device

### Direction of use

Remove all rests of dirt.

Soak the stable material or transport equipment with a 2-5% Biosafe solution.

Contact time: 15-30 minutes

Rinse under high pressure (min. 35 bar).

### Specifications

Physical state	Liquid
Colour	Green
pH	ca 12 (1%)
Relative density	ca 1.1

### Storage and Disposal

Keep only in the original container in a cool, well ventilated place. Keep container closed when not in use. Do not store in corrodable metal. Dispose in a safe manner in accordance with local/national regulations. Avoid release to the environment. Dispose of this material and its container at hazardous or special waste collection point.

### Safety instructions for the user

Keep out of reach of children.

Care should be taken to reduce the possibility of eye contact.

In case of eye contact, flush the eyes with copious amount of water and seek medical advice.

In case of skin contact, remove affected clothes and wash all exposed skin area with mild soap and water, followed by warm water rinse. Seek medical attention immediately.

In case of inhalation, assure fresh air breathing. Allow the victim to rest. Seek medical attention immediately.

In case of ingestion, rinse mouth. Do not induce vomiting because of corrosive effects. Take to hospital.

Please check the MSDS.
