

Alkaline chlorinated cleaning and disinfecting product

Product Description

Eco Chlor is an alkaline chlorine cleaning and disinfecting product for all CIP and spray systems in the food industry.

Properties

Eco Chlor is suitable in biological agriculture according to EC regulation N° 834/2007.

Composition: according to regulation (EU) no. 528/2012:

Sodium hypochlorite (CAS no.:7681-52-9), 48g/l active chlorine.

Use in PT4 (biocide in food industry). Only for professional use.

Direction of use

Pre rinse before application.

Circulate a 0.5-2% solution at a temperature of 50-65°C for 10 minutes.

Rinse with cold water.

Specifications

Physical state	Liquid
Colour	Yellow
pH	ca 12.5 (1%)
Freezing point	-15 °C
Boiling point	100 °C
Density	ca 1.19 kg/l
Solubility in water	100 %

Storage and Disposal

Keep at temperature not exceeding 50 °C. Protect from freezing. Keep container closed when not in use.

Dispose in a safe manner in accordance with local/national regulations.

Safety instructions for the user

Avoid contact between alkaline and acid products.

Always test the product first on a small surface.

Consult your Cid Lines sales' person for a suitable cleaning- and disinfecting program that is adjusted according to the contamination and the specific conditions of the company.

Before use, please check the MSDS.

Use biocides safely. Before use, read the label and the information concerning the product.

Not all CID LINES products are available in all countries. For information about availability of a specific product, please contact your CID LINES dealer.
