

Boosting and complexing additive

Product Description

AD 50 is an additive to fix minerals in the cleaning water and to improve the alkaline cleaning solution performance. AD50 is suitable for application in all types of CIP installations in the food industry.

Properties

AD 50 avoids and reduces mineral accumulation.
AD 50 improves the cleaning performance of the alkaline CIP cleaner.

Direction of use

The usual dosage depends on the application and water hardness:
Add 0.1-0.5% AD 50 to the alkaline cleaning solution.

Specifications

Physical state	Liquid
Colour	Colourless to light yellow
pH	ca 11.5 (1%)
Density	1.26 kg/l
Solubility in water	100 %

Storage and Disposal

Keep only in the original container in a cool, well ventilated place. Keep container closed when not in use. Protect from freezing. Dispose of this material and its container at hazardous or special waste collection point. Dispose in a safe manner in accordance with local / national regulations.

Safety instructions for the user

Avoid contact between alkaline and acid products.
Always test the product first on a small surface.
Consult your Cid Lines sales' person for a suitable cleaning- and disinfecting program that is adjusted according to the contamination and the specific conditions of the company.

Before use, please check the MSDS.

Not all CID LINES products are available in all countries. For information about availability of a specific product, please contact your CID LINES dealer.
