

Product protocol

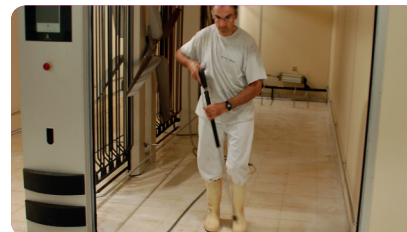

Virocid®

STEP 1

Dry cleaning

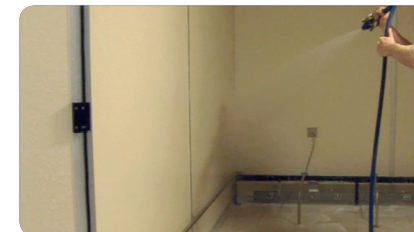

Take away all remaining dirt.

STEP 2

Foaming

With high pressure after every hatch (dosage 0,25 - 0,5%).

STEP 3

Rinse with water

Medium or high pressure cleaner (25-100 bar, 12-30L/min.) and let dry.

STEP 4

Disinfecting (spray or foam)

Spray/foam 0.3L solution/m² at 2% after every collecting.
